NBN Co does not provide accreditation for these companies (or other companies who may be capable of providing the Services), nor should their inclusion in this list be construed as an endorsement from NBN Co.

This list of companies does not contain all information that developers may require to evaluate which company to engage to provide such Services, and is not intended to form the basis of any decision by any developer as to who to engage to provide the Services. Developers should conduct their own due diligence and obtain their own independent advice when engaging companies to perform the Services.

Except as required by law, NBN Co expressly disclaims any implied or express representation or warranty that:

- the listed companies will provide the Services or any particular service;
- the services provided by the listed companies will meet any requirements or needs that any developer may have;
- the services provided by the listed companies will meet NBN Co's requirements or specifications, including for any pit and pipe design and construction work; or
- that this list is accurate, complete, or sufficient.

To the maximum extent permitted by law, NBN Co expressly disclaims and excludes all liability for any loss or damage of any kind (whether direct, indirect, or consequential) suffered or incurred by any person relying on this list of companies or in connection with the provision or contents of this list of companies, including as a result of any omission, inadequacy, insufficiency, or inaccuracy.

Each person using this list of companies agrees that it irrevocably releases NBN Co in relation to any claims, actions, damages, judgment, losses, remedies, or other matters (whether in contract, negligence, tort, under statute, equitable relief or otherwise) in connection with the provision or contents of this list of companies or the purported reliance on this list of companies.
