**Ready to connect:** A premises is ready to connect when an nbn service order can be placed, and the service can be connected within an area that has been declared ready for service.

**Premises activated:** Refers to premises which have an active service installed.

Variations in numbers from month to month reflect the ongoing changes within nbn's footprint such as new developments and network and technology upgrades. Due to some brownfields being replaced with greenfields, the volume of brownfields premises is understated.

(A) and (B) includes brownfields.
