

By making this request, the Builder agrees to the following 'Terms and Conditions':

- a) The Builder represents and warrants to NBN Co that it has the authority to make this request for the pre-installation of NBN equipment at the properties listed on the form (**Properties**), and to grant the waiver referred to in paragraph d) below, either on the basis that the Builder is the Owner and Occupier of the Properties, or is authorised to make this request on behalf of the Owner(s) and Occupier(s) of the Properties. The Builder acknowledges that NBN Co will be relying on this representation if it carries out the pre-installation referred to in this request.
Note: Where the Builder has not received authorisation from the Owner and/or Occupier, NBN Co will not be able to progress with this request.
- b) NBN Co, its employees, agents and contractors may access and enter the Properties for the purposes of installing NBN equipment for or in connection with the requested pre-installation, and leave the NBN equipment in place once it has been installed.
- c) The Builder authorises NBN Co and its contractors to install and leave in place the NBN equipment. The NBN equipment remains the property of NBN Co at all times, and only NBN Co or its contractors can remove it. The Builder must not interfere with or damage the NBN equipment.
- d) The Builder, in its capacity as Owner and Occupier of the Properties, or as an authorised representative of the Owner(s) and Occupier(s) of the Properties, waives the right of all Owner(s) and Occupier(s) to receive notice under clauses 17 and 18 of Schedule 3 of the *Telecommunications Act 1997* (Cth) regarding the installation of the NBN equipment at the Properties.
- e) By making this request, neither the Builder nor the future residents of the Properties will be obliged to order phone or internet services over the NBN from a phone or internet service provider. If telephone and/or internet services are required, a request will need to be made directly to a retail service provider, and not to NBN Co.
- f) NBN Co, its employees, agents and contractors may use any personal information provided as part of this form to connect and maintain the NBN equipment for quality purposes, and to resolve any complaints. The Builder acknowledges such personal information may be accessed by contacting NBN Co on 1800 OUR NBN (1800 687 626).

By submitting the pre-installation form, the Builder confirms that it has the authority to make this request for and on behalf of all Owner(s) and Occupier(s) of the Properties (including in accordance with the conditions set out above), and that the Builder agrees to the terms and conditions above.
