Section 10 sets out a Fair Use Policy in relation to the **nbn**TM Enterprise Ethernet Portal.

10. Fair use

10.1 Purpose and objectives

- (a) The purpose of this **nbn**TM Enterprise Ethernet Portal Fair Use Policy section is to support the consistent supply of relevant products to all of **nbn**'s retail service providers and ultimately to end users as expected by both parties as at the Execution Date, recognising that the **nbn**TM Infrastructure is a shared resource and the activities of one person can detrimentally affect the use of **nbn**TM Infrastructure or relevant **nbn** products or services by another person.
- (b) The objectives that this **nbn**TM Enterprise Ethernet Portal Fair Use Policy section aims to meet are as follows:
 - (i) avoid adverse impacts on the quality or reliability of the **nbn**TM Infrastructure, or the consistent supply of any relevant **nbn** products and services to all **nbn** retail service providers and ultimately to end users, by ensuring that RSP does not use, or permit others to use, **nbn**'s products and services in an excessive or unreasonable manner;
 - (ii) permit use of the **nbn**TM Infrastructure and **nbn**TM Enterprise Ethernet Portal in accordance with the relevant terms of the WBA; and
 - (iii) enable **nbn** to deliver products and services in a commercially sustainable manner.

10.2 Application

This **nbn**TM Enterprise Ethernet Portal Fair Use Policy section applies to RSP's use of the **nbn**TM Infrastructure and **nbn**TM Enterprise Ethernet Portal. This document forms part of the **nbn**TM Platform Interfacing Service Module.

10.3 RSP obligations

- (a) RSP must not, and must ensure its Personnel do not, engage in Unfair Use.
- (b) RSP must ensure that the contracts it enters into with third parties contain valid and enforceable provisions which:
 - (i) prohibit those third parties from engaging in Unfair Use; and
 - (ii) entitle RSP to take steps to stop and/or prevent that Unfair Use (whether by way of disconnection or deactivation of equipment or suspension of the supply of the RSP Product or otherwise).
- (c) RSP must, if requested in writing by **nbn**, exercise those rights referred to in section 10.3(b)(ii) as soon as reasonably practicable to the extent necessary to stop and/or prevent Unfair Use by the third party.

10.4 Unfair Use

In this **nbn**TM Enterprise Ethernet Portal Fair Use Policy section, **Unfair Use** means use of the **nbn**TM Infrastructure or **nbn**TM Enterprise Ethernet Portal that creates a risk to:

- (a) the integrity of the **nbn**TM Infrastructure;

- (b) the integrity of the network, systems, equipment or facilities of RSP or any Other RSP used in connection with the **nbn**TM Network or at the National Test Facility;
- (c) the quality or reliability of the **nbn**TM Infrastructure, or the consistent supply of any relevant **nbn** product or service supplied by **nbn** to RSP or any Other RSP; or
- (d) the health or safety of any person,

but excludes any use of the **nbn**TM Infrastructure or **nbn**TM Enterprise Ethernet Portal that is permitted under a Permitted Fair Use Policy Exemptions document.

Examples of conduct that may constitute Unfair Use include:

1. use of the **nbn**TM Infrastructure or **nbn**TM Enterprise Ethernet Portal in a way that causes or may cause interference, disruption, congestion or, more generally, sub-optimal network performance;
2. undertaking (or attempting to undertake) any of the following activities without authorisation:
 - (a) disabling, disrupting or interfering with the regular working of any service or network, including, without limitation, via means of overloading it, denial of service attacks, flooding a network, stress testing or volume testing;
 - (b) probing, scanning or testing the vulnerability of a system or network; or
 - (c) breaching the security or authentication measures for a service or network;
3. the submission of an excessive number of requests for Service Feasibility Assessments which may impact **nbn**'s ability to process assessments in a reasonable timeframe for RSP or any Other RSP;
4. the submission of an excessive number of requests for Service Feasibility Assessments which **nbn** reasonably believes RSP does not intend to convert to Orders; or
5. the submission of a request for a Service Feasibility Assessment which **nbn** reasonably believes is for the purpose of obtaining Confidential Information with respect to Build Activities which RSP would not otherwise be entitled to receive.

10.5 Non-compliance

Non-compliance with this **nbn**TM Enterprise Ethernet Portal Fair Use Policy may result in:

- (a) an immediate Ordering Freeze, Service Reduction or Suspension of an Ordered Product under clause F5 of the [Head Terms](#); or
- (b) the disconnection of RSP Equipment under clause C10 of the [Head Terms](#).
